

First Project Presentation

Team Members

Date: 10/23/2018

- Motivation & Purpose
- Competitors/Similar Applications
- Design Strategy
- Technical Overview
- What's next?
- Feedback...

Pitch your application

- What is the problem?
- What is your solution?
- What is the motivation for the idea?

What does the app do?

Who would want to use it?

Competitors (or Similar Applications)

What are the current alternatives?

Why is another solution needed?

How do you differ?

- How are you complementary?
- Do you fit into an ecosystem?

What did you design first?

What are you implementing first?

How do you manage the project?

How do you split the workload amongst group members?

What are your Resources?

What Controllers and Models did you design?

What Tests have you written or planned?

What's next?

What are you working on next?

What technologies do you still need to learn/integrate into your project?

Solicit feedback from audience...

Use the audience as a focus group to settle design and technical questions in your design.

Thank You!
